Discontinuation of the RC180 controller

Dear Valued Customer

Our reliable robotic systems are available for many years but of course every product lifetime is limited. With this letter we would like to inform you about the upcoming discontinuation of the **RC180 controller including its options on 31st March 2019**. From this point of time the RC180 controller will be exclusively replaced by the RC700-A as successor.

Last time buy conditions of RC180 controller including options and combinations:

Date for last order acceptance: 31st December 2018

Date for last shipments: 31st March 2019.

RC180 programs can of course be converted and transferred to the RC700-A furthermore the RC700-A offers new functionalities such as force sensing, conveyor tracking, multi-manipulator control and more other useful and powerful tools. Further information on the RC700-A can be found on the Internet at www.epson.co.uk/robots/.

In order to ensure the operation of installed machines please consider to take preventive measures as the spare part availability is only guaranteed until 31st March 2026.

Your sales representative will be happy to answer any questions you may have and assist you with the changeover. If you would like to contact us, please call our office staff under 00492159 538 1800.

Best regards
